MAYOR O'NEIL IS AFTER THE SPEEDERS

One of the first duties that Mayor William O'Neil is going to attend to, is seeing that the law against speeding and other unlawful auto driving is strictly enforced in Richmond.

He said Friday morning that he had instructed the policemen to be especially on the lookout for motorists who do not seem to have regard for the rights or lives of others, and if there is any way to break up the practice of some young men of whirling through town at 50 or 60 miles an hour he's going to find it out. He said several plans under consideration that may prove unusually effective he thinks, but isn't going to make them public until they begin to show results. He will undoubtedly receive the commendation of all citizens in this work.

A large number of motorists have been summoned to appear in police court before Judge J. M. Smith tonight, and tell why they have been speeding or neglecting to obey the law about auto lights.

Washington said: "When you battle and lose, battle again and win." Respectfully, EUGENE K. MOYNAHAN.

DODGE BROS. NAME NEW LOCAL DEALERS

Woods and White To Handle Popular Car In Five Counties In This Section

Announcement is made by Dodge Brothers, Detroit, of the appointment of Woods and White their dealers in Richmond. They will occupy the old Madison Garage on Second street with a complete salesroom and service station. Their territory includes Madison, Garrard, Estill, Rockcastle and Jackson counties.

The remarkable popularity of the Dodge Brothers motor car has caused automobile men all over the country to clamor for sales privileges, but Dodge Bros. policy of quality in selling methods, as well as quality in the car, requires a painstaking investigation in every instance before a selection is made. In Messrs. Woods and White, Dodge Bros. have dealers on whom they believe they may rely for both progressiveness and fair business methods.

The prompt manner in which Dodge Bros. assumed one of the foremost positions in the automobile industry is regarded as a striking testimonial to the high regard in which their name was held by the public even before they marketed a motor car bearing their name. Prior to that time Dodge Bros. had built the vital parts for more than half a million other cars, establishing a reputation for thoroughness and mechanical skill.

This reputation has been more than upheld. It is said of Dodge Bros. in explanation of their unusual success, that they spare no money or effort in building a car to suit their particular ideas of thoroughness in manufacture.

It is significant that the first Dodge Bros. motor car ever built was made up exactly as a car is made in the regular line of production. Ordinarily the "experimental job," as the first car known, is built of castings because of the great time and expense involved in preparing dies for forging. Dodge Bros., however, decided that their experimental car should be like the car they expected to build in every detail, so that neither they nor the public might be "fooled." So they spent almost a year in making these dies and preparing otherwise for a completely manufactured car. As a result, when the car was built they knew what they had and what they and the public might expect of their products. As a further result this first car, although only an "experimental job" is still in daily service on the hardest runs—experimenting under all sorts of road conditions—and with a record of more than 150,000 miles behind it. This is but an illustration of the many things unique in the history of Dodge Bros. as manufacturers.

Public approval of their principles of thoroughness is seen in the rapid expansion of Dodge Bros. works made necessary by public demand. In December, 1914, it was a plant of less than 20 acres. Today Dodge Bros. works covers 100 acres of floor space.

**GREAT WORK OF U. S.
REMOUNT STATION**

Accomplishing Much to Build
Unexcelled Line of Cavalry
Horses Invaluable to
Army.

The World War was the great cal-
dron in which birth was given to
many organizations looking to the
leadership of America in every path
of economic activity; and no such ac-
tivity bearing on the future of one of
our most vital essentials compares
with that of the American Remount
Association, an organization composed
of some of the country's leading men
it came into being as a result of the
dire necessity of more and better
blooded horses for the United States
Army. Thus, with kindred organiza-
tions, it is promoting one of the most
important undertakings looking to-
ward our future security.

The object of the Remount Associa-
tion is the improvement of general
purpose horse conditions in every
State in the Union; and because of
the importance of the work entailed,
Col. F. S. Armstrong, of the United
States Army, has been placed in
charge, with headquarters in Washing-
ton, D. C., where his department is in
close touch with every other govern-
mental agency. The Remount Associa-
tion, with the co-operation of others
similarly engaged, has, during the
eighteen months of its existence, suc-
ceeded in getting one hundred and
sixty-four stallions—eighty-five of
which were donated by patriotic or-
ganizations and individuals—for dis-
tribution throughout the country, to
be utilized by farmers desirous of
raising the standard of their horses.

In laying out the work, it was de-
cided to profit by the experience of for-
eign governments and locate thorough-
bred sires in every grazing community
of the country. The whole was di-
vided into zones, and a plan of breed-
ing, to the interest of the farmers of
America, inaugurated. Recent reports
from the Association's headquarters in
Washington show that there has been
an average of fifty-five mares for
each stallion, although the breeding
season is not yet concluded. Also, at
a meeting of the Association, it was
shown that there was a demand for
some seven hundred horses last
Spring, and that, for the coming
Spring, this demand will be doubled
or even trebled.

Both the race courses and the thor-
oughbred nurseries constantly are
being drawn upon for horses of proven
course in the acid test of racing.
It remains for them to produce the
only type that measures up to the
standard destined to supply the United
States cavalry remounts worthy of the
men in the saddle.

It may be added that, owing to the
broad plan of fostering the industry
of horse breeding as practiced for
generations by the British, French and
Italian Governments, these countries
were in the enviable position of ability
to supply their armies with good
mounts, whereas, America, which had
never introduced such a system was
obliged to draw upon the resources
of the allied nations to horse her men.

"Taking Schools Out of Politics"

Many counties of Kentucky are
getting such an unpleasant taste of
"non-partisanship" in the con-
duct of their county school affairs
that they are regarding with
more and more suspicion the
scheme lead by State Superinten-
dent of Schools George Colvin to
make the next State Superinten-
dent's office "non-partisan" or as
he calls it, "take the schools out
of politics." Colvin fostered a
plan to take the County School
Boards "out of politics" and now
wants to handle the state the
same way. But read this from
the Lancaster Record and see
what Colvin's "non-partisanship"
did to a faithful and hardworking
school official. The Lancaster
paper says:

The "non-partisan" Board of
Education, the one organization
which State Superintendent of
Schools George Colvin, says is
and must be, non-political, re-
fuses to re-appoint Miss Helen
Gill county attendance officer for
Garrard county, although it is
admitted and conceded by all that
she was one of the best officers in
the state. Her record during the
past year has brought favorable
comment from many throughout
the state and that she filled the of-
fice efficiently and capably has
never been questioned, hence her
removal comes as a distinct shock
and disappointment to friends
and patrons of the schools in Gar-
rard county. But it was too good
a piece of political pie to be over-
looked by the "non-partisan"
school board and it voted unani-
mously to appoint Silas Baird, of
Preachersville, a staunch republi-
can and a party worker in Gar-
rard county for many years. This
is "taking the schools out of pol-
itics" with a vengeance.

FRECKLES

**March Worse Month For This
Trouble—How To Remove
Easily**

There's a reason why nearly
everybody freckles in March, but
happily there is also a remedy
for these ugly blemishes, and no
one need stay freckled.

Simply get an ounce of Othine
—double strength, from your
druggist and apply a little of it
night and morning, and in a few
days you should see that even the
worst freckles have begun to dis-
appear, while the light ones have
vanished entirely. Now is the
time to rid yourself of freckles,
for if not removed now they may
stay all summer, and spoil an oth-
erwise beautiful complexion.
Your money back if Othine fails.

DECIDES ON BEST LIFE INSURANCE

"Five years ago I was refused life insurance because of my heart symptoms. Doctors said it was caused from a pressure of gas that came from my stomach but their medicine did not help me and I was getting worse all the time. Three years ago my druggist recommended May's Wonderful Remedy. I took a course of it and believe it is the best life insurance any one can buy." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince or money refunded. H. L. Perry and Son and druggists everywhere.

UNABLE TO WALK WITHOUT A STICK

Covington Woman Gets Rid of Rheumatism—Daughter Also Restored to Health

"Tanlac has helped me and my little girl too, and there is nothing I can say I feel is good enough for it," said Mrs. Margaret Hutchens, 511 Pakewell street Covington, Ky.

"I suffered from rheumatism for six years and my back, joints and limbs hurt me so that I was miserable all the time.

"I couldn't walk without a stick and it was so hard for me to get about that I rarely left the house. My back hurt me so I couldn't bend over and straighten up again without suffering agony. My stomach was all disordered. I had no appetite and what little I ate seemed to do me more harm than good. I couldn't get any sound sleep at night and was going down hill fast.

"This was the condition I was in when I began taking Tanlac. I can say for this medicine it has benefited me in every way. In fact it has restored me to perfect health. I was so amazed at the good results I received from it that I gave some to my little girl, who was weak and puny, and it acted just as marvelously in her case as it did in mine and today she is the very picture of health."

Tanlac is sold in Richmond by Stockton and Son, and leading druggists.

RICHMOND "PUTS IT ON" THE REOS

Fastest and Best Game of Season
Won By Local Boys By
4 to 2

The Richmond ball club behind the good pitching of Jim Park, won a pitcher's battle from the Lexington Reos on the Normal grounds Thursday by a score of 4 to 2. It was the fastest and best ball game seen here this season. An eighth inning rally that was staged by the local nine was responsible for the victory. The Reos had won nine straight games before this. Stewart, who worked for the Reos, twirled a good game, holding the Richmond boys to two runs until the eighth inning.

The Reos played their best in a great effort to beat their manager, Stewart, who twirled a steady game but weakened enough in the eighth to allow the locals to shove across the winning runs. Neither pitcher issued a free pass to first during the entire contest. Stewart hit one man, Jim Park had control of the situation at all times, as the Reos earned only one of their runs. He had perfect control, and had the Reos hitting the ball right at the fielders throughout the contest.

Richmond got away to a one run lead in the first inning when Millard tripled to deep center and came home on Ray's error.

The Reos tied the score in the fifth when Stokley singled and went to second on Hayes' wild throw in an effort to catch him stealing. Stokley came home when Oldham let a hot grounder go clean between his legs.

Richmond took the lead again in the sixth on Combs' single and Jim Lackey's double to right center that scored Combs.

The Reos came back in the seventh and tied the score on a single by Riley, his stolen base, and a single by Muth.

The locals showed their stuff when they staged their successful rally in the eighth. After one was down, Hembree singled to center and rode home on Combs' lordly triple to deep left field. Combs scored on Rogers' single. This completed the scoring for the day which was more than enough for a park held the Reos without a run their last two times at bat.

Jim Lackey was robbed of a hit in the second by a dazzling one-hand stop made by Morton. The Reo guardian of the short field.

Charley Rogers made a fine catch of Amato's difficult fly in the eighth inning. Hembree also made a great catch that ended the game.

The local team by defeating the Reos has proven itself to be a real team and some very tough games are to be booked for the future. The score:
